Subject: Cleanup could hurt local jobs

The EPA should think about small companies and families that will help foot a big bill for the river cleanup when many of them struggle.

The EPA should come out with a plan that's good for the river and the fish. But you should also make sure that the plan is flexible and isn't so expensive that it drives out the companies that supply the blue-collar jobs our city needs.

Thank you for considering my concerns. I hope you will agree that we need to do all we can to support Portland's environment and economy.

Sincerely,
